

## **Safety Data Sheet**

UKLEEN PVT LTD. All rights reserved. Copying and/or downloading of this information for the purpose of properly utilizing UKLEEN products is allowed provided that: (1) the information is copied in full with no changes unless prior written agreement is obtained from 3M, and (2) neither the copy nor the original is resold or otherwise distributed with theintention of earning a profit thereon.

**Document group:** 32-7127-7 **Version number:** 2.09

**Issue Date:** 13/01/2021 **Supersedes date:** 09/12/2020

This Safety Data Sheet has been prepared in accordance with the GHS guidelines & India Hazardous substances(Classification, Labeling & Packaging) Draft Rules 2011.

# **SECTION 1: Identification**

# 1.1. Product identifier

UKLEEN CAR CARE Car wash shampoo

# **Product Identification Numbers**

IA-2601-0043-2 IA-2601-0114-1 IA-2601-6639-1 IA-2601-6640-9 IA-2701-0192-5

1.2. Recommended use and restrictions on use

## Recommended use

Automotive.

## **COMPANY**

UKLEEN INC. 4717 District Blvd, Suite 2, Bakersfield, CA 93311, US

**Emergency telephone number: (844)8UKLEEN** 

# SECTION 2: Hazard identification

01/01/21

Under MSIHC Rules, information is noted below on flammability, acute toxicity and explosivity relevant to this product. In line with international standards, information on other hazard classes and associated precautionary statements relevant to this product are included as well.

## 2.1. Classification of the substance or mixture

Acute Toxicity (dermal): Category 3. Acute Toxicity (oral): Category 4.

Acute Toxicity (inhalation): Category 5. Serious

Eye Damage/Irritation: Category 1.Skin Corrosion/Irritation: Category 2.

Specific Target Organ Toxicity (single exposure): Category 3.Acute

Aquatic Toxicity: Category 1.

Chronic Aquatic Toxicity: Category 3.

## 2.2. Label elements

## **Signal Word**

DANGER!

### **Symbols**

Corrosion | Skull and crossbones | Environment |

# **Pictograms**

# **HAZARD STATEMENTS:**

Toxic in contact with skin.

Harmful if swallowed.

May be harmful if inhaled.

Causes serious eye damage.

Causes skin irritation.

May cause respiratory irritation.

Very toxic to aquatic life.

Harmful to aquatic life with long lasting effects.

# **PRECAUTIONARY STATEMENTS**

# General:

Keep out of reach of children.

If medical advice is needed, have product container or label at hand.

# **Prevention:**

Avoid breathing dust/fume/gas/mist/vapors/spray.

Use only outdoors or in a well-ventilated area.

01/01/21

Wear protective gloves, protective clothing, and eye/face protection.

Avoid release to the environment.

## **Response:**

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF ON SKIN: Wash with plenty of soap and water.

Immediately call a POISON CENTER or doctor/physician.

If skin irritation occurs: Get medical advice/attention.

### Storage:

Store locked up.

### Disposal:

Dispose of contents/container in accordance with applicable local/regional/national/international regulations.

### 2.3. Other hazards

None known.

# SECTION 3: Composition/information on ingredients

This material is a mixture.

Ingredient	CAS Nbr	% by Wt
Sodium dodecyl sulphate	151-21-3	< 80
Water	7732-18-5	>20

# SECTION 4: First aid measures

# 4.1. Description of first aid measures

## **Inhalation**

Remove person to fresh air. If you feel unwell, get medical attention.

### **Skin contact**

Immediately wash with soap and water. Remove contaminated clothing. Get medical attention. Wash clothing before reuse.

### Eye contact

Immediately flush with large amounts of water for at least 15 minutes. Remove contact lenses if easy to do. Continue rinsing. Immediately get medical attention.

# If swallowed

Rinse mouth. If you feel unwell, get medical attention.

# 4.2. Most important symptoms and effects, both acute and delayed

No critical symptoms or effects. See Section 11.1, information on toxicological effects.

01/01/21

4.3. Indication of any immediate medical attention and special treatment required

Not applicable

# SECTION 5: Accidental release measures

# 5.1 Personal precautions, protective equipment and emergency procedures

Evacuate area. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Refer to other sections of this SDS for information regarding

physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

### 5.2 Environmental precautions

Avoid release to the environment. For larger spills, cover drains and build dykes to prevent entry into sewer systems or bodies of water.

### 5.3 Methods and material for containment and cleaning up

Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue with detergent and water. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

# SECTION 6: Handling and storage

## 6.1 Precautions for safe handling

Keep out of reach of children. Avoid breathing dust/fume/gas/mist/vapors/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment. Wash contaminated clothing before reuse. Avoid contact with oxidizing agents (e.g., chlorine, chromic acidetc.)

# 6.2 Conditions for safe storage including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Store away from heat. Store away from oxidizing agents.

# SECTION 7: Exposure controls/personal protection

# 7.1 Control parameters

## **Occupational exposure limits**

No occupational exposure limit values exist for any of the components listed in Section 3 of this Safety Data Sheet.

### 7.2 Exposure controls

# 7.2.1 Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure

01/01/21

Limits and/or control dust/fume/gas/mist/vapors/spray. If ventilation is not adequate, use respiratory protection equipment.

## 7.2.2 Personal protective equipment (PPE)

### **Eve/face protection**

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/faceprotection(s) are recommended:

Full face shield.

Indirect vented goggles.

## Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture,

frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protectiveclothing. Gloves made from the following material(s) are recommended: Neoprene. Nitrile rubber.

# **Respiratory protection**

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as partof a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure: Half facepiece or full facepiece air-purifying respirator suitable for organic vapors and particulates. For questions about suitability for a specific application, consult with your respirator manufacturer.

# SECTION 8: Physical and chemical properties

## 8.1. Information on basic physical and chemical properties

Physical state	Liquid.
Color	Orange
Odor	Orange
рН	7
Melting point/Freezing point: NA	Not applicable.
Flash point	No flash point
Flammable Limits(LEL)	Not applicable.
Flammable Limits(UEL)	Not applicable.
Density	1.08 g/cm3
Relative density	1.08 [Ref Std:WATER=1]
Water solubility	Soluble
VOC less H2O & exempt solvents	

# **Nanoparticles**

This material does not contain nanoparticles.

# SECTION 9: Stability and reactivity

01/01/21

9.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

9.2 Chemical stability

Stable.

9.3 Possibility of hazardous reactions

Hazardous polymerization will not occur.

9.4 Conditions to avoid

Heat.

9.5 Incompatible materials

Strong oxidizing agents.

9.6 Hazardous decomposition products

Substance

Condition

None known.

# SECTION 10: Disposal considerations

## 10.1. Disposal methods

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. As a disposal alternative, incinerate in a permitted waste incineration facility. Proper destruction may require the use of additional fuel during incineration processes. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

# SECTION 11: Regulatory information

## 11.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

# **Global inventory status**

Contact UKLEEN for more information.

# **Applicable Environmental, Health and Safety Regulations**

Hazardous Waste (Management, Handling & Transboundary)

Hazardous Chemicals (Classification, Packaging and Labelling Draft Rules),

The following ingredients are listed as hazardous on Part II of Schedule I of the India Manufacture, Storage and Import of Hazardous Chemicals (MSIHC) rules None.

The following ingredients are classified as hazardous based on the criteria listed under Part I of Schedule I of the IndiaManufacture, Storage and Import of Hazardous Chemicals (MSIHC) rules: The product is classified as Toxic liquid.
